Thanks Donna!

Libby demobilized from the site yesterday, I believe. Also I think HQ has someone in the ground helping with this. Rich could you ensure this request gets to the right person? Also, it might be worthwhile to do an R8 mailer with instruction in where staff should send requests...?

Thanks!

Hello, I am looking for the right person at regional EPA who may be available for a television interview Friday morning, on the Animas river spill.

Took your names from a release about something else!

Can you direct me please?

Thank you,

Cynthia
